**About SeaLife:**

SeaLife Underwater Cameras are made by Pioneer Research in Moorestown, NJ and were first introduced in 1993. In 2000, SeaLife developed the world's first digital underwater camera. In 2013 SeaLife introduced the powerful and universally fitting Sea Dragon range of underwater lighting and its innovative Flex-Connect tray, grip, arm, and accessory system. In 2014, SeaLife introduced the Micro HD, the world's first permanently sealed underwater camera, followed by the new Micro 2.0 in 2015 and the cutting-edge DC2000 underwater camera for 2017 and beyond. SeaLife cameras, lighting and accessories are sold and serviced in over 60 countries around the world.
