SeaLife introduces Sea Dragon® Mini 1000F Dive Light

MOORESTOWN, NJ – SeaLife has introduced the new Sea Dragon Mini 1000F light. Featuring 1000 lumens, the compact imaging and dive light offers users tremendous brightness and a wide 130° beam. The light can be handheld, or mounted to an arm or camera adapter with its included YS adapter mounting accessory kit.

All light functions are easily accessible with one handed operation to cycle through five light modes. The five light modes are: full power, half power, quarter power, one-second flash signal and emergency SOS signal, both at full power. The light's power and mode button also features a battery charge level indicator, which illuminates from green, to amber, to red when batteries charge is depleted.

The Mini 1000F light is constructed of an anodized aluminum machined body for maximum durability and corrosion resistance. The dual O-ring design ensures reliable waterproof seal down to depths of 330ft/100m.

The Sea Dragon 1000F runs for 4.35 hours with the included 18650 rechargeable Li-ion 2600mAh battery at quarter power, 2.2 hours at the half power setting, and 65 minutes at full power. With an optional 3500mAh 18650 rechargeable Li-ion battery, the light will run 6 hours at quarter power, 3 hours at the half power setting, and 90 minutes at full power. The battery compartment grip features an integrated safety pressure release valve that relieves internal pressure built-up in the event the battery malfunctions. Two single-use CR123 may also be used with 4 hour run time at quarter power and 1 hour at full power. The light is sold with a 2600mAh Li 18650 rechargeable battery and USB charger.

The compact Sea Dragon Mini 1000F Photo/Video & Dive Light will easily slip into your BCD pocket. The light may also be mounted to camera systems with its included YS mount adapter, GoPro camera adapter, and AquaPod underwater camera pod adapter. A wrist lanyard with a BCD-clip is included allowing divers to secure the light to their wrist or clipped on to their BCD D-ring. The Sea Dragon Mini 1000F also contains two spare O-rings and O-ring lube.

The Sea Dragon Mini 1000F is available for shipment now!

SLKIT07	Sea Dragon Mini 1000F Light KIT w/18650 Battery and Mini charger	\$149.95

About SeaLife:

SeaLife Underwater Cameras are made by Pioneer Research in Moorestown, NJ and were first introduced in 1993. In 2000, SeaLife developed the world's first digital underwater camera. In 2007, SeaLife developed the first non-housed digital underwater camera, and in 2013 SeaLife introduced the powerful Sea Dragon Lighting system and its innovative Flex-Connect tray, grip, arm, and accessory system. In 2014, SeaLife introduced the Micro HD, the world's first permanently sealed underwater camera, followed by the new Micro 2.0 in 2015 and the cutting-edge DC2000 underwater camera in 2017. SeaLife cameras, lighting and accessories are sold and serviced in 64 countries around the world.
