

SportDiver app V2.0 update available now

The SeaLife SportDiver app, version V2.0, is now available in the **Apple App Store**.

App name: **SportDiver**. The update includes the following enhancements:

- Adds video resolution setting -> UHD-4K, HD-1080p, HD-720p. Frame rate setting is planned for next app update.
- Prevents phone from going to Auto-Lock when app is running. No need to set Auto-Lock to Never.
- Adds on-screen exposure & settings data to top of display (can be enabled/disabled).
- Extends the iPhone's battery life by turning off the camera when phone is in Power Save mode.
- Improves Settings Menu order - moved popular settings to top of menu.
- Changes name of Background Blur to "Portrait (Bokeh)". Same setting, different name.
- Fixes "Dark Mode" issue. When phone is set to Dark mode, the Settings Menu is now visible.
- Adds languages -> Spanish, German, French, Italian, Dutch, Traditional & Simplified Chinese.
- Adds Triple Lens zooming function. This only applies to iPhones with three lenses. When Lens is set to Triple, use the zoom up/down to increase/decrease magnification. The ultra-wide lens is 1.0x zoom, wide lens is at 2.0x zoom and telephoto at 4.0x zoom. All other zoom factors are optical + digital zoom. See below chart. You may also use the on-screen exposure data to determine what lens you are using depending on the F-stop.

SportDiver App Triple Lens Zoom/F-stop values by iPhone					
Zoom	Lens	Optical or Digital zoom	11Pro & 11Pro Max	12Pro	12Pro Max
1.0	UltraWide	Optical	f/2.4	f/2.4	f/2.4
