SeaLife Introduces the SeaLife Protective Gear Pouch

MOORESTOWN, NJ – SeaLife has introduced the SeaLife Protective Gear Pouch; a soft lined pouch that protects cameras, lenses, lights or other precision dive gear.

The Gear Pouch’s soft velvet interior prevents scratches on sensitive optics and electronics, especially designed for the lenses.

The exterior features a jersey coated neoprene, swivel clip and belt loop attachments. The collar has a water resistant lining with a cinch cord with sliding lock to seal top of pouch.

The Interior dimensions are: 5” (13cm) diameter, 6” (15cm) height; 1 liter volume.

The pouch is designed to fit into the SeaLife Photo Pro Backpack.

The SeaLife Protective Gear Pouch is available for shipment now!
