## SportDiver Smartphone Housing Pre-Dive Checklist

- 1. **TEST** *all your gear before your trip.*
- 2. **PACK SPARES** *of essential items like o-rings, lube, Moisture Muncher, and batteries.*
- 3. **PREPARE** *yourself by reviewing the manual and maintenance instructions.*

### Before your Dive:

- 4. **CHARGE** *your phone battery.*
- 5. **CHECK** *housing batteries and Moisture Muncher are in place; DO NOT TOUCH moisture sensor.*
- 6. **CLEAN & LUBE** *housing and check port o-ring, use a thin coating of lube.*
- 7. **SET the PHONE** *to Airplane mode: ON; Bluetooth: ON; Do not Disturb: ON.*
- 8. **CLEAN** *phone display screen, and lenses and lens port of the SportDiver Housing, remove any phone cover or case.*
- 9. **POWER ON** *the housing and open the SportDiver app.*
- 10. **PLACE the PHONE** *in the HOUSING & SEAL it, allow it to adjust to outside temperature, then apply specified pressure using vacuum pump.*
- 11. **CHECK** *online Troubleshooting if you experience any problems.*

### After your Dive:

- 12. **SOAK & RINSE** *the SportDiver housing in fresh water pushing all buttons to flush out any salt water.*
- 13. **DRY** *the SportDiver housing using a towel, making certain the housing and you are completely dry.*
- 14. **RELEASE** *vacuum pressure, while making sure no water is present under the check port cap.*
- 15. **OPEN** *the housing with the lens facing up to avoid any drops from getting inside the housing*
- 16. **POWER OFF** *the housing,*
- 17. **STORE** *the housing in a cool, dry place with the door slightly open (unlatched)*
