01 | LENSES

6"/15cm Wide Angle Dome Lens for SportDiver
Item SL053

Easy above-below water split shots. Increases field-of-view by 43%, improves focus, and corrects distortion with better edge-to-edge sharpness. Securely attaches to SportDiver lens frame without lens adapter.

67mm-52mm Lens Adapter for SportDiver
Item SL081

Works with most 67mm and 52mm wide angle and macro lenses. Easily adjust lens location on land or underwater without tools. Durable, hard-anodized machined aluminum construction. Securely mounts to SportDiver lens port.

0.7x 52mm Wide Angle Dome Lens
Item SL054

Low profile, precision 4-element optical lens design. Increases field of view by +43%, improves focus and corrects edge distortion. Standard 52mm thread mount. Works with SL081 Lens Adapter and other underwater housings with 52mm lens port.

LIGHTS | 02

Sea Dragon 3000F Color Boost™ UW Photo-Video Light
Item SL681

Powerful 3000 lumen COB LED light with 90 CRI, very close to natural sunlight. Color Boost™ setting replenishes the lost red colors for a balanced, warm color effect. New single-dial design for fast, easy operation and gradual brightness adjustment. Includes Flex-Connect®w single tray and grip.

Sea Dragon 5000+ Color Boost™ UW Photo-Video Light
Item SL680

SeaLife's most powerful photo-video light. Color Boost™ replenishes lost colors for a balanced, vivid color effect. 90 CRI which closely mimics sunlight. One-button operation with 8 light modes and four Color Boost™ settings. Includes Flex-Connect, YS and Ball Joint adapters.

Buoyancy Flotation Rings
Item SL931

Durable high-density foam rings attach to Flex-Connect flex arms and grips. Each ring adds 5 ounces (140g) of float. Adding float rings helps keep your SeaLife underwater camera & lighting in an upright position, making for more comfortable handling and control.

03 | ACCESSORIES

flex-connect

Flex-Connect® Ultra Dual Tray

Item SL9908

Ergonomically shaped for a comfortable grip with the Sealife SportDiver and other smartphone & camera housings. Improved control and easy shutter access with or without dive gloves.

Retractors

SeaLife Large Gear Retractor

Item SL926

Designed for the Sealife SportDiver, DC-series and other mid-sized cameras/housings or large underwater lights. Retraction can be locked. Durable 316 stainless steel hardware. Retracts to 42"/107cm.

SeaLife Gear Retractor

Item SL925

Perfect for Micro 3.0, ReefMaster RM-4K, and other compact cameras and dive lights. Easily clips to BCD D-ring and retracts 32"/81cm.

Filters

Moisture Muncher Desiccant

Item SL911

New individually wrapped capsules will keep unused desiccant fresh for years. Prevents fogging and mildew. Keeps gear clean and dry. Indicating desiccant turns from blue to pink when full absorption capacity is reached.

New 12-Count Master Carton

Item SL9112 Contains 12 each SL911 10-capsule packs.

Item SL40003

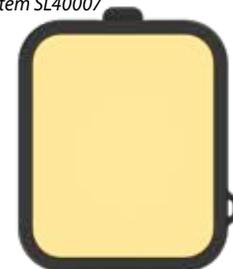

SportDiver Color Filters

Item SL40007

Removable color-correction filters for the SportDiver that restore natural underwater colors. Red filter for blue water, Magenta filter for green water, and Yellow filter for use with underwater fluorescence & UV lights. Available now!
